

Figure 4: Reasoning Comparison (task: bbh-0130)

Classic (1747 output tokens)

** (C) Rob finished last**

Reasoning: Mya is 2nd, Eve is 3rd, and Ada is 6th. Since Mya finished above Joe, Joe must be 4th, 5th, or 7th. Since Mel finished above Ada (6th), Mel must be 7th. Rob must finish below Mya, and with only 1st and 7th left, Rob takes 7th (Ana gets 1st).

Final order: Ana, Mya, Eve, Joe, Mel, Ada, Rob.

** (C) **

Positions: Ana(1), Mya(2), Eve(3), Mel(4), Joe(5), in Ada(6), Rob(7) – all conditions check out.
